St. Johns County Begins the Recovery Process

Power Companies – Power companies are aware of the widespread power outages and will be working as quickly as possible, as weather permits, to restore power to the citizens of St. Johns County.

Power Lines Down – Many power lines are down throughout the County. Please consider all downed lines dangerous and energized. Power companies are aware of the downed lines and as weather permits will have crews out restoring power to those areas affected.

JEA: 1-904-665-6000

Trees Down – Many trees throughout the County are down, please use caution. County Crews are responding, as weather permits, and are clearing trees and debris from roadways as quickly as possible. County Crews will be clearing major roads first, neighborhood roads second. Residents are to be advised – St. Johns County does not remove trees from residential property.

Chain Saws | Warning – Please be advised to use extreme caution using chain saws while removing downed trees and debris on your property. Be aware of potential downed lines beneath trees and debris.

Damage Assessment Teams – Damage Assessment Teams will be evaluating, as weather permits, overall damage to St. Johns County.

Travel – For your safety, we encourage citizens to limit their travel and only go out as necessary until roadways have been cleared.

Intersections – Due to the power outages and downed lines, many traffic lights are not functional. Motorists are advised to use extreme caution when approaching these areas and to treat these intersections as:

4 – Way Stops
