The disaster declaration covers the counties of Flagler, Putnam, Saint Johns and Volusia in Florida, which are eligible for both Physical and Economic Injury Disaster Loans from the SBA.

- Businesses and nonprofits can apply for up to $2 million to repair or replace disaster damaged real estate, machinery, equipment, inventory, and other business assets. Loans for working capital, known as Economic Injury Disaster Loans, are available even if the business did not suffer any physical damage.

- Homeowners can apply for up to $200,000 to repair or replace disaster damaged real estate. Homeowners and renters can apply for up to $40,000 to repair or replace damaged personal property including automobiles.

Interest rates are as low as 4 percent for businesses, 2.625 percent for private nonprofit organizations, and 1.563 percent for homeowners and renters, with terms up to 30 years. The SBA customizes loan amounts and terms based on each applicant’s circumstances.

Applicants may be eligible for a loan amount increase up to 20 percent of their physical damages, as verified by the SBA for mitigation purposes. Eligible mitigation improvements may now include a safe room or storm shelter to help protect property and occupants from future damage caused by a similar disaster.

The SBA offers several ways to apply for a disaster loan: online application via SBA’s secure website at https://disasterloan.sba.gov/ela; or download an application from www.sba.gov/disaster. For information or to request application forms, call the SBA’s Customer Service Center at 800-659-2955 (800-877-8339 for the deaf and hard-of-hearing) or send an email to disastercustomerservice@sba.gov.
