St. Johns County Hurricane Dorian Water Services Update

St. John County, FL – St. Johns County Utility currently does not anticipate a need to disconnect water supply to the barrier islands. However, should weather conditions deteriorate to a point that the public water system is at risk, a disruption in water supply services may be necessary to protect the integrity of the system. Should a disruption of service be necessary, St. Johns County will provide notification to affected property owners as early as possible. For more information on Hurricane Dorian, please call the St. Johns County Emergency Operations Center hotline at 904.824.5550.
